

Medicine passed thru
the same cycle
of development

Superstition, & all
in hands of priests
heretics now, common

Metaphysics with
Manner of Disease ^{ground} all;
painful nosology
pathology & therapeutics
Systems of Brown & Brown
such examples -
Empirical, always &
in ^{men} ^{men} art -

Medicine now begin
to be positive, by
combining induction &
deduction.

Era of induction
Medicine just begun
laid a basis of
physiology. — mind
— clinical & chemical pathol-
ogy investigated, &
accurately observed & recorded
Clinical medicine — it
now, after 20 many ages, began
to become a science worth of the

name,
For a par with the natural Venetian

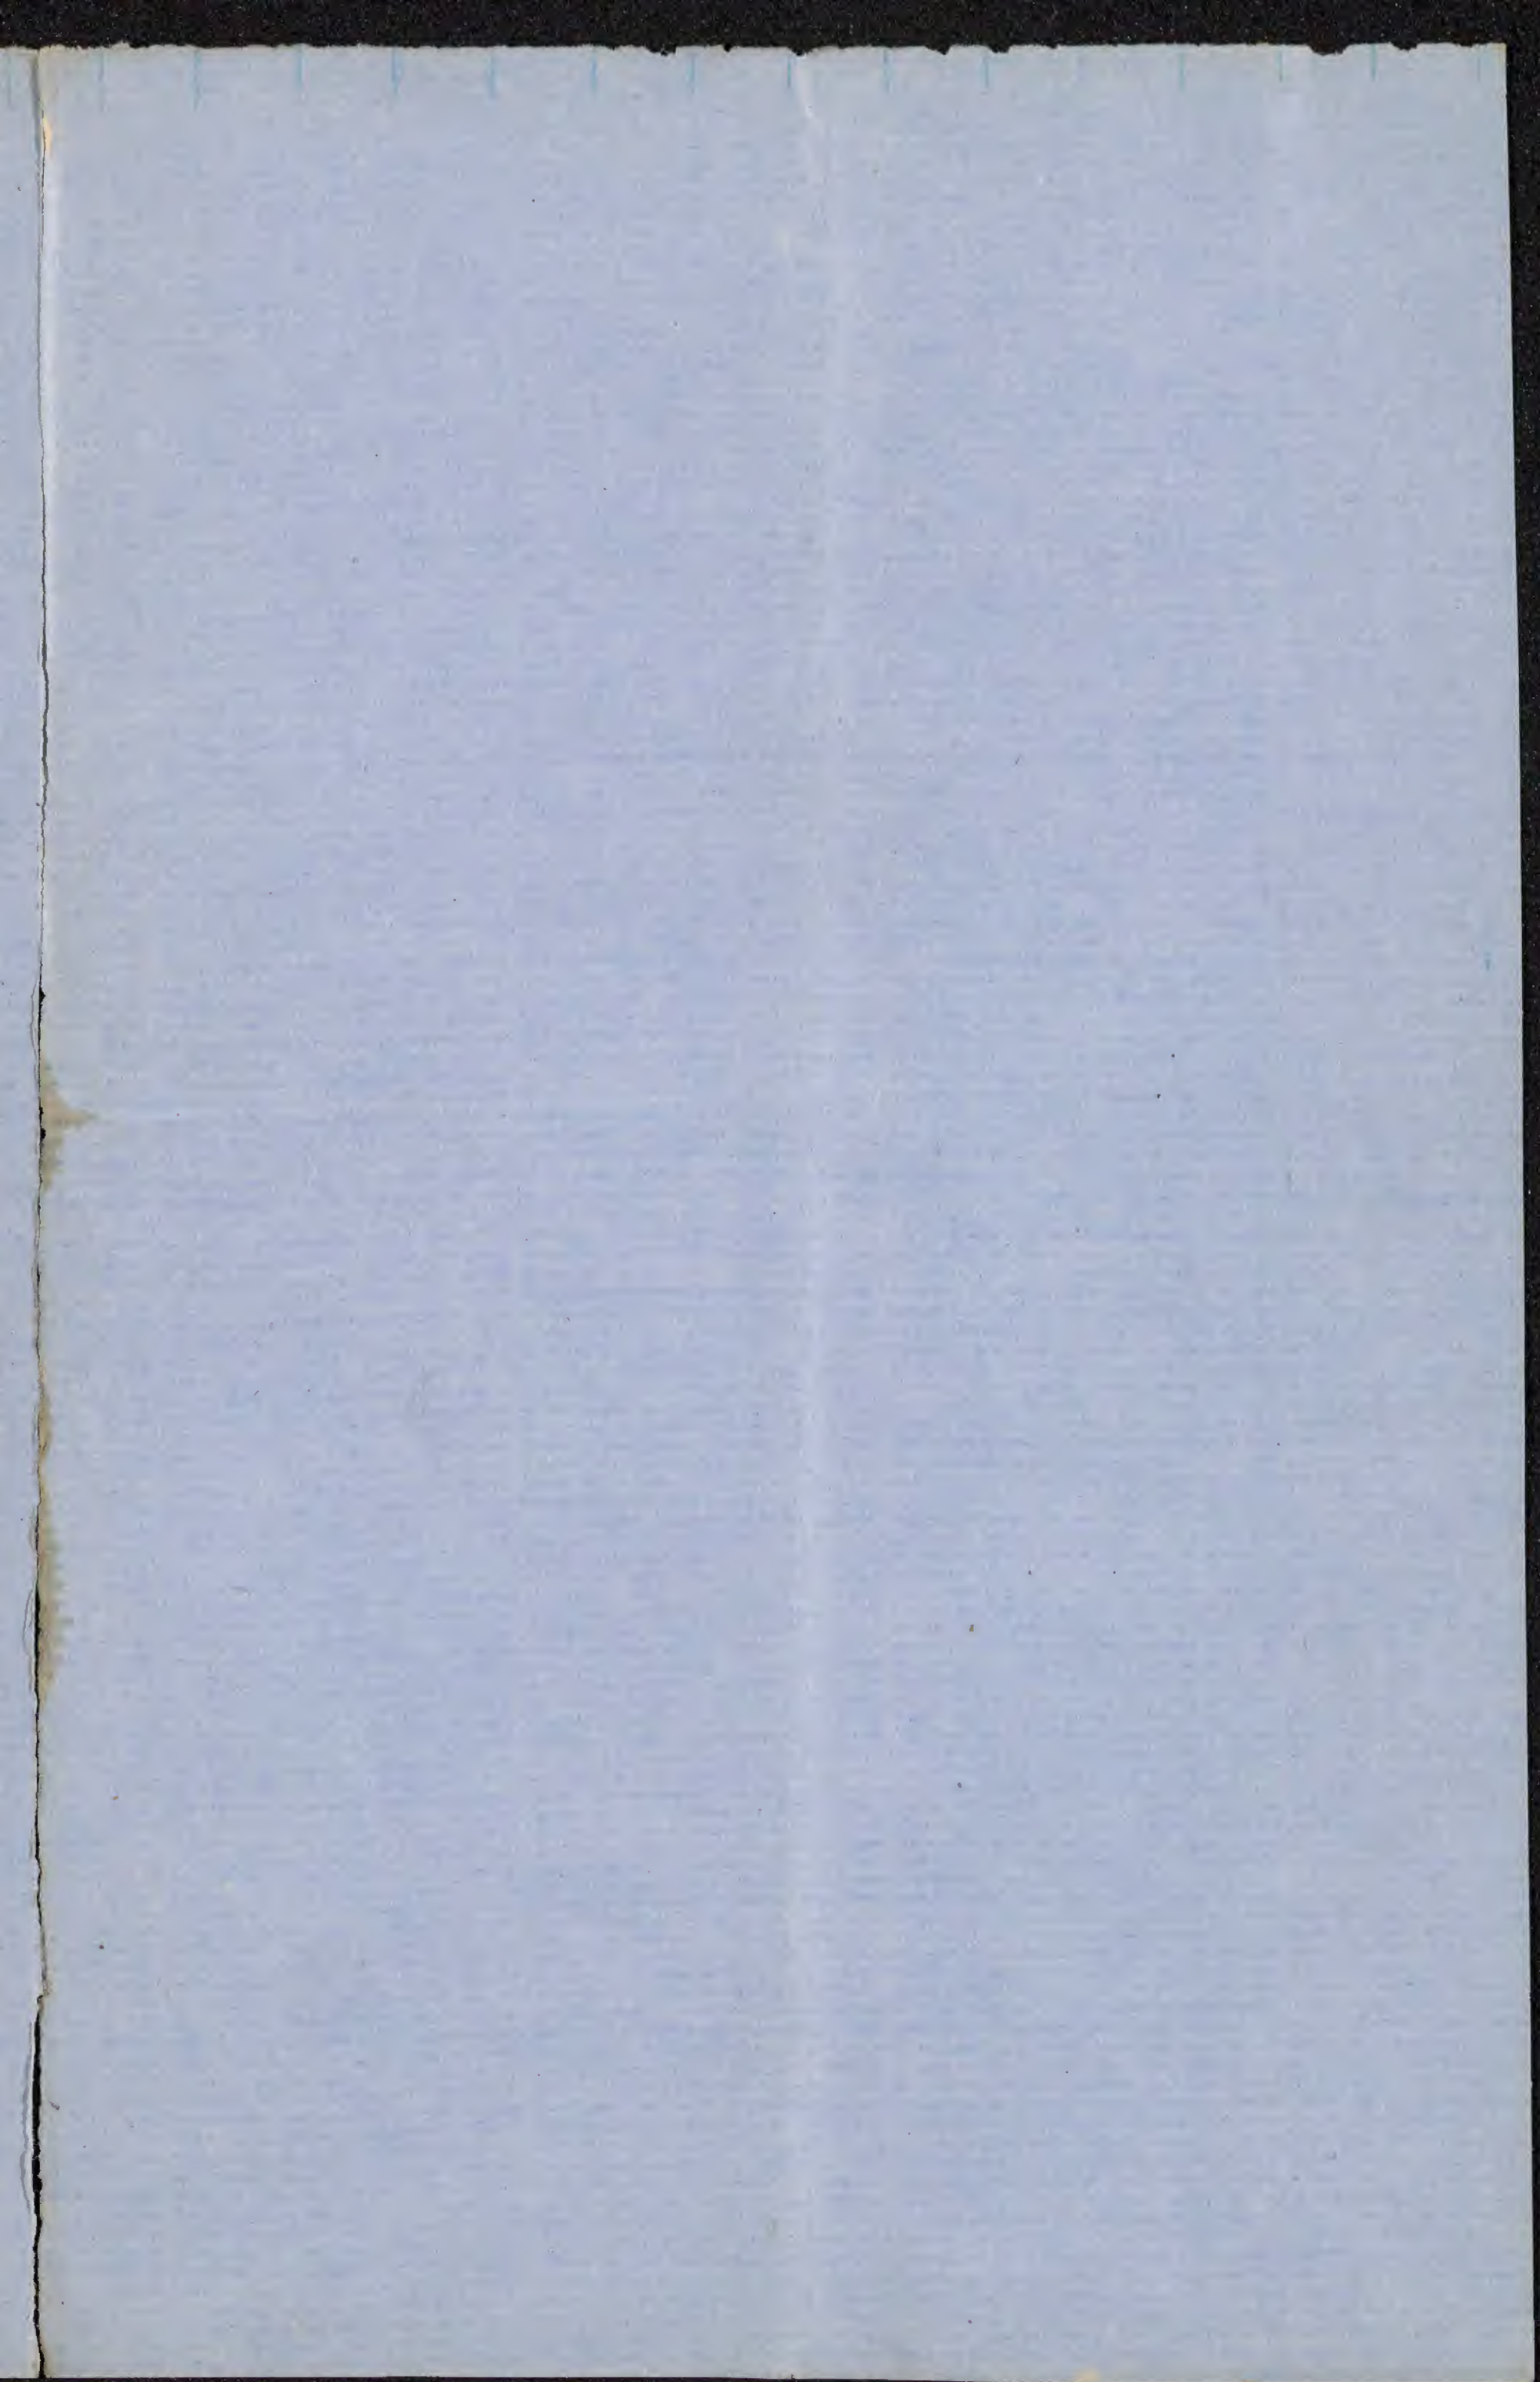

adorn, the day must be far
aspirant when will reach

that ^{ultimate} perfection found without all
its vicissitudes must long and labor

to see it end. -
